

PRODUCT BULLETIN

StoVentro™ Sub-construction

DESCRIPTION

StoVentro™ Sub-construction is an adjustable, thermally efficient structural system of brackets, rails, fasteners, and accessories for StoVentec® Systems and other rainscreen wall cladding assemblies. Safe and long-lasting, the sub-construction absorbs both the wind loads and dead loads present on the facade. Alongside structural suitability, the design of the sub-construction incorporates corrosion resistance and a reduction in thermal bridging, while also being quick and easy to install.

STOVENTRO BRACKET – Galvanized Steel

StoVentro Steel Brackets are offered primarily in Zn-Al-Mg galvanized steel. Stainless Steel versions are also available. * Steel brackets are offered with and without a spring finger, for insertion of StoVentro T or L-Profiles. Large Brackets (FP) transfer dead loads and wind loads to the primary structure. Small Brackets (GP) transfer only wind loads to the primary structure. A thermal break accessory is available with the brackets to minimize thermal bridging effects. Minimum bracket depth for those with spring fingers is 80mm. * *Zn-Al-Mg-Galvanized steel brackets (up to 120mm depth w/o spring fingers) are stocked in inventory. Deeper sizes, those with spring fingers, as well as all stainless steel brackets are made to order and/or imported, requiring a lead time.*

	StoVentro Bracket Large Brackets (FP)	StoVentro Bracket Small Brackets (GP)	
Thickness	2.0mm (1/8in)	2.0mm (1/16in)	
Height	130mm (5-1/8 in)	75mm (2-15/16in)	
Depth	40mm – 360mm depth in 20mm increments (1-9/16in - 14-3/16in in 13/16in)		
Adjustability	30mm (1-3/16in)	30mm (1-3/16in)	

STOVENTRO BRACKET – ALUM

StoVentro Bracket – ALUM is an aluminum wall bracket. Large Brackets (FP) transfer dead loads and wind loads to the primary structure. Small Brackets (GP) transfer only wind loads to the primary structure. A thermal break accessory is available with the brackets to minimize thermal bridging effects.

Thermal Blocking Element - 6mm (1/4in) thick thermal break accessory that isolates the wall bracket from thermal bridging effects of the primary structure, available in two sizes to match the footprint of the large or small bracket.

	StoVentro Bracket-ALUM Large Brackets (FP)	StoVentro Bracket-ALUM Small Brackets (GP)	
Thickness	40mm-180mm Brackets 3.2mm (1/8in)	40mm-180mm Brackets 3.2mm (1/8in)	
	200mm-320mm Brackets 4.2mm (3/16in)	200mm-320mm Brackets 4.2mm (3/16in)	
Height	135mm (5-5/16 in)	95.5mm (3-3/4in)	
Depth	40mm – 320mm depth in 20mm increments (1-9/16in – 12-5/8in in 13/16in)		
Adjustability	30mm (1-3/16in)	30mm (1-3/16in)	

PRODUCT BULLETIN

StoVentro™ Sub-construction

STOVENTRO BRACKET – PHSS

StoVentro Bracket – PHSS is a specially designed bracket for Passive House wall construction that is free from thermal bridges and maximizes the thickness of insulation that can be used in the wall assembly. **PHSS brackets are made to order and imported only, requiring a lead time.*

Thermal Blocking Element – 10mm (3/8in) thick thermal break accessory that isolates the wall bracket from thermal bridging effects of the primary structure, in two sizes to match the footprint of the large or small bracket. Thermal Sliding Element – 1mm (1/32in) thick thermal break accessory that isolates the StoVentro ‘T’ or ‘L’-Profiles from thermal bridging effects of the wall bracket.

	StoVentro-PHSS Large Brackets (FP)	StoVentro-PHSS Small Brackets (GP)	
Thickness	1.5mm (1/16in)	1.5mm (1/16in)	
Height	135mm (5-5/16in)	65mm (2-1/2in)	
Depth	200-360mm in 10mm increments (7-7/8in – 14-3/16in in 3/8in)		
Adjustability	30mm (1-3/16in)	30mm (1-3/16in)	

STOVENTRO THERMAL BLOCKING ELEMENT

Thermal Blocking Element - 6mm (1/4in) thick thermal break accessory that isolates the wall bracket from thermal bridging effects of the primary structure, available in two sizes to match the footprint of the large or small bracket for the ALUM and Steel StoVentro Brackets.

Thermal Blocking Element - 10mm (3/8in) thick thermal break accessory that isolates the wall bracket from thermal bridging effects of the primary structure, available in two sizes to match the footprint of the large or small bracket in the PHSS StoVentro Brackets.

	6mm Thermal Blocking Element	10mm Thermal Blocking Element	
Thickness	6mm (1/4in)	10mm (3/8in)	
Height	Matches corresponding ALUM & Steel brackets	Matches corresponding PHSS brackets	
Hole Pattern	Matches corresponding ALUM & Steel brackets	Matches corresponding PHSS brackets	

STOVENTRO T-PROFILES and L-PROFILES

StoVentro T and L-Profiles are aluminum rails/profiles. The profiles are the supporting sub-construction for the rainscreen attachment profile or cladding. StoVentro T-Profiles come in two sizes for more flexibility of attaching rainscreen claddings. StoVentro L-Profiles are also used to stiffen outside corners at cantilevered sections rainscreen cladding.

Thermal Sliding Element – 1mm (1/32in) thick thermal break accessory that isolates the StoVentro ‘T’ or ‘L’-Profiles from thermal bridging effects of the wall bracket.

	StoVentro T-Profiles	StoVentro L-Profile	
Thickness	2.7mm (1/8in)	2.7mm (1/8in)	
Bearing Surface	90mm or 120mm (3-9/16in) or (4-3/4in)	40mm x 50mm (1-9/16in x 2in)	
Insertion Leg	52.7mm (2in)	40mm or 50mm (1-9/16in or 2in)	
Length	Standard, 3m (9ft-10in) Custom available, 6m (19ft-7in)

StoVentro™ Sub-construction

STOVENTRO EXTENSION BRACKETS

StoVentro Extension Brackets are made of aluminum or stainless-steel to fit with the respective aluminum or steel brackets. The extension brackets allow for in the field flexibility. Brackets allow for up to 60mm of extension from bracket.

	StoVentro Steel Extension Brackets	StoVentro ALUM Extension Brackets	
Thickness	2.0mm (1/16in)	3.2mm (1/8in)	
Height	FP: 130.5mm (5-1/8in) GP: 75.5mm (3in)	FP: 135mm (5-5/16in) GP: 95.5mm (3-3/4in)	
Depth	100mm (3-15/16in)	100mm (3-15/16in)	
Hole Pattern	Matches corresponding bracket		

STOVENTRO SUB-CONSTRUCTION SCREWS

	<p>The StoVentro Sub-construction Screw is a self-drilling, hexagonal head stainless steel screw with a hardened drill point and overtightening protection for attachment of StoVentro T-Profiles and StoVentro L-Profiles to StoVentro Brackets.</p> <p>Size: 5.5mm x 22mm (3/16in x 7/8in), 500 per box</p>
	<p>The StoVentro Bracket to Steel Stud Fastener with washer, is a self-drilling hexagonal head stainless steel screw (Bi-Metal) with a hardened drill point for attachment of StoVentro Brackets to metal stud walls.</p> <p>Size: 1/4-14 x 2" (1/4in x 2in), 250 per bag</p>

ATTENTION

This product is intended for use by qualified professional contractors, not consumers, as a component of a larger construction assembly as specified by a qualified design professional, general contractor or builder. It should be installed in accordance with those specifications and Sto's instructions. Sto Corp. disclaims all, and assumes no, liability for on-site inspections, for its products applied improperly, or by unqualified persons or entities, or as part of an improperly designed or constructed building, for the nonperformance of adjacent building components or assemblies, or for other construction activities beyond Sto's control. Improper use of this product or use as part of an improperly designed or constructed larger assembly or building may result in serious damage to this product, and to the structure of the building or its components. **STO CORP. DISCLAIMS ALL WARRANTIES EXPRESSED OR IMPLIED EXCEPT FOR EXPLICIT LIMITED WRITTEN WARRANTIES ISSUED TO AND ACCEPTED BY BUILDING OWNERS IN ACCORDANCE WITH STO'S WARRANTY PROGRAMS WHICH ARE SUBJECT TO CHANGE FROM TIME TO TIME.** For the fullest, most current information on proper application, clean-up, mixing and other specifications and warranties, cautions and disclaimers, please refer to the Sto Corp. website, www.stocorp.com.
