

StoGuard® Masonry Veneer on Steel Stud Backup Shelf Angle with Stand-offs

Light Gauge Steel / Sheathing Stud Cavity Insulation StoGuard® Detail Component Stud Framing StoGuard® Air and Water-Resistive Barrier Sto TurboStick® (Optional) Masonry Anchor Seal Backed with StoGuard® Detail Component Continuous Insulation Termination Bar w/continuous Compatible Sealant at Top Compatible Masonry Thru-Wall Flashing StoGuard® Detail Component Adj. Shelf Angle Anchored to Structure, w/ Horizontal Expansion Joint Below StoGuard® Detail Component Compatible Masonry Thru-Masonry Weep Vent Flashing Flashing w/Drip Edge, set in Continuous Compatible Sealant Sto TurboStick® to Fill Gaps Horizontal Expansion Joint Masonry Veneer at Underside of Angle StoGuard® Detail Component

Notes:

1. Refer to StoGuard Product Use Chart (Table 1.1) for StoGuard detail components; joint treatment, rough opening protection, backing for masonry anchors, or transitions to dissimilar materials, joints and seams in construction.

Detail No.: 61s.21A

Date: March 2022

- 2. Refer to General Notes for specific information and design guidance on wall assembly components.
- 3. Components not identified as Sto are furnished by other manufacturers and are not necessarily installed by trades who install the Sto products. Refer to project specific contract documents.

ATTENTION

Sto products are intended for use by qualified professional contractors, not consumers, as a component of a larger construction assembly as specified by a qualified design professional, general contractor or builder. They should be installed in accordance with those specifications and Sto's instructions. Sto Corp. disclaims all, and assumes no, liability for on-site inspections, for its products applied improperly, or by unqualified persons or entities, or as part of an improperly designed or constructed building, for the nonperformance of adjacent building components or assemblies, of for other construction activities beyond Sto's control. Improper use of Sto products or use as part of an improperly designed or constructed larger assembly or building may result in serious damage to Sto products, and to the structure of the building or its components.
